

Additional AAX features

Background processing  
callback

```
graph LR; A[Background processing callback] --> B[Additional AAX features]
```

The diagram consists of two rectangular boxes. The box on the right is shaded gray and contains the text 'Background processing callback' in two lines. The box on the left is white and contains the text 'Additional AAX features'. A black arrow points from the right side of the gray box to the left side of the white box, indicating a flow or relationship from the background processing callback to the additional AAX features.
